

Scheduling a Report

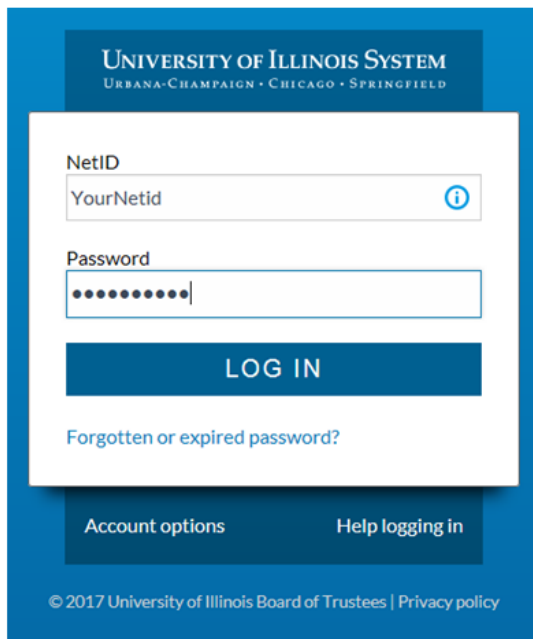

Scheduling reports to run automatically lets you automate the process of refreshing your documents and can also greatly reduce the run time by allowing you to schedule your reports to run during off-peak periods. Reports can be automatically sent to other users, or groups of users, in Web Intelligence format, or as Excel or PDF files. Note that reports must be saved to your Favorites folders in EDDIE prior to being exported.

Note:

Scheduling will not work for reports that have prompt values that need to change with each refresh. When building the schedule, you are required to enter the prompt values for all prompts in the report.

Creating a Schedule

1. Go to the EDDIE login page: <https://eddie.ds.uillinois.edu/>.
2. Enter your University NetID and Password and click Log in

3. Click on the **Documents** tab.
4. Select the report to schedule in your **Favorites** folder.
5. Click the **More Actions** drop-down menu on the toolbar and choose **Schedule** (or right-click on the report title and choose **Schedule**)

6. Enter a title for the instance you are creating

7. Select the **Recurrence** option. The recurrence indicates how often you want to the scheduled report to run.
8. Select the recurrence frequency from the **Run Object** drop-down list.

9. Complete the remaining recurrence fields (They will vary depending on which recurrence you select).
10. Enter a **Start Date / Time** and an **End Date / Time** for recurrence.
