2.8 Updated Data Warehouse Mapping	4
3. Finance	5
3.1 Added Requisition Requestor Email Address.....	5
3.2 Added Requestor Email Address	5
3.3 Corrected Data	5

1. Student

1.1 Added Emergency Contact Information for Student and HR

Areas Affected:

Universe(s): EDW-HR Employee Administration

Case Number: 20060725_260

Date Implemented: September 21, 2007

Description: Decision Support added student and employee emergency contact information to the EDW universe listed and applied appropriate security permissions. The information is also available to Student users via ODBC only. This change allows users to easily create updated lists of emergency contact information for employees and/or students in their college/department.

1.2 Corrected Current Info Indicator

Areas Affected:

Table(s): T_STUDENT_AH_CRS_GRADE_HIST

Case Number: 20070530_264

Date Implemented: September 21, 2007

Description: Decision Support corrected the Current Info Indicator in T_STUDENT_AH_CRS_GRADE_HIST to eliminate occurrences appearing where more than one row was returned. This change improves reporting accuracy.

1.3 Removed College and Department

Areas Affected:

Table(s): T_STUDENT_AH_MISC_EVENT

Case Number: 20070110_694

Date Implemented: September 21, 2007

Description: Decision Support removed the college and department code information from T_STUDENT_AH_MISC_EVENT to prevent incorrect department codes being reported. This change increases data reporting accuracy.

2. HR/Payroll

2.1 Added Emergency Contact Information for Student and HR

Areas Affected:

Universe(s): EDW-HR Employee Administration

Case Number: 20060725_260

Date Implemented: September 21, 2007

Description: Decision Support added student and employee emergency contact information to the EDW universe listed and applied appropriate security permissions. The information is also available to Student users via ODBC only. This change allows users to easily create updated lists of emergency contact information for employees and/or students in their college/department.

2.2 Corrected Current Condition Pre-Defined Condition “Current Contract”

Areas Affected:

Universe(s): EDW-HR Position/Job Hierarchy

Case Number: 20070622_358

Date Implemented: September 21, 2007

Description: Decision Support changed the pre-defined condition “current contract” in the HR Position/Job Hierarchy universe to carry through the outer join and allow a report to return current contracts for jobs with contracts and also return jobs without contracts. This change improves reporting.

2.3 Added Earns Group Code Data

Areas Affected:

Universe(s): EDW-HR Reported Time

Case Number: 20070626_426

Date Implemented: September 21, 2007

Description: Decision Support added the Earns Group Code information to the Reported Time universe. This change assists users to proactively correct job records and ensure correct pay.

2.4 Corrected Join and Object Name

Areas Affected:

Universe(s): EDW-HR Employee Administration

Case Number: 20070409_653

Date Implemented: September 21, 2007

Description: Decision Support corrected a join in the Employee Administration universe from EDW.T_JOB.EDW_PERS_ID=EDW.T_LOA_HIST.COA_CD(+) to EDW.T_JOB.EDW_PERS_ID=EDW.T_LOA_HIST.EDW_PERS_ID(+). This change corrects report output data.

2.5 Removed Fund Level 4 and Added Grant Type Code/Desc

Areas Affected:

Universe(s): EDW-HRFIN BOS Expenses

Case Number: 20070621_422

Date Implemented: September 21, 2007

Description: Decision Support removed a Fund Level 4 object from the BOS Expenses universe because reporting on this level was not valuable to users. Decision Support also added objects to the universe that represent type of grant (private, federal, other) to improve reporting capabilities.

2.6 Added New Column to Employee Email View

Areas Affected:

Universe(s): EDW-HR Employee Administration
EDW-HR Position and Job Hierarchy
View(s): V_EMPEE_CAMPUS_EMAIL_ADDR

Case Number: 20060630_356

Date Implemented: September 21, 2007

Description: Decision Support added a new column (EMAIL_UI_REPT_IND) to the view V_EMPEE_CAMPUS_EMAIL_ADDR. The new column selects the single best UI email address per person on the employee campus email address view. This change simplifies limiting query results to include only the one best UI email address.

2.7 Corrected EMAIL_RPT_IND in T_EMAIL_ADDR

Areas Affected:

Universe(s): EDW-HR Employee Administration
EDW-HR Position/Job Hierarchy
Table(s): T_EMAIL_ADDR

Case Number: 20060614_190

Date Implemented: September 21, 2007

Description: Decision Support corrected the T_EMAIL_ADDR.EMAIL_RPT_IND so that records incorrectly flagged as "Y" in this field are correctly flagged as "N", matching the logic indicated in the metadata. EMAIL_RPT_IND was also added to the Employee Administration and Position/Job Hierarchy universes. This change improves data accuracy and reporting.

2.8 Updated Data Warehouse Mapping

Areas Affected:

Table(s): T_JOB_DETL

Case Number: 20070816_834

Date Implemented: September 18, 2007

Description: Decision Support updated the Data Warehouse mapping for T_JOB_DETL.

3. Finance

3.1 Added Requisition Requestor Email Address

Areas Affected:

Universe(s): EDW-Finance Purchase Orders Invoice (FinPOInv)
Table(s): T_REQ

Case Number: 20070423_463

Date Implemented: September 21, 2007

Description: Decision Support added the Requisition Requestor Email field (sourced from Banner table FPBREQH) to the EDW Requisition Header table and to the related Requisition Header class in the Purchase Order Invoices universe. This change allows users to easily obtain the requisition, requestor, and requestor email address in one EDW or BO report.

3.2 Added Requestor Email Address

Areas Affected:

Universe(s): EDW-Finance Purchase Orders Invoice (FinPOInv)
Table(s): T_PO

Case Number: 20070327_506

Date Implemented: September 21, 2007

Description: Decision Support added the Requestor Email field (sourced from Banner table FPBPOHD_EMAIL_ADDR) to the Purchase Order header table and to the related Purchase Order Invoices universe. This change allows users to easily obtain the requestor email address together with the PO number and requestor name in one BusObj report.

3.3 Corrected Data

Areas Affected:

Table(s): T_AR_TRAN
Column(s): AR_TRAN_PARTY_DESC
STUDENT_EDW_PERS_ID

Case Number: 20070821_553

Date Implemented: September 11, 2007

Description: Decision Support corrected a data issue in the columns listed regarding occasions when a "party" would become a "student" after the transaction was entered but the transaction was not updated by the Data Warehouse processing logic.
