2/18/2010 Student Operational 20100208_R294976	**Recreated UIS Application Census Data** The 2/1/2010 Application Census for UIS did not capture student application data as expected. In order to provide a temporary workaround, Decision Support added another census date to T_AC_TIME for 2/4/2010 (see case R290686 completed on 2/4/10). With this change, DS recreated the 2/1/2010 UIS Application Census data and deleted the temporary census data (from 2/4).	T_AC_TIME

This allows users to know which of the rows in the archive table are being moved into the student registration table so they can review the transactional history of course registrations from the temporary location to the permanent location.
