5/25/2010	Addressed Processing Failure in RNVAND1 Extract for Financial Aid Applicant Status Table	T_FA_APPLICANT_STATUS
Student	Decision Support addressed the Data Warehouse processing (ETL) failure in RNVAND1 for the Financial Aid	
Operational	Applicant Status table. The Financial Aid upgrade on May 2 caused ETL query failure prior to this change.

6/3/2010	OMBRE Phase 3 Deployed	T_PERS_HIST
Student	Decision Support deployed phase 3 of the OMBRE project, implementing the following changes:	T_RACE_HIST
Enhancement	1) Student Pre-Registration and Registration: Existing Race/Ethnicity classes remained as is and new	V_PERS_HIST_PRR_FULL_LTD
n/a	classes were created that contain the new Race and Ethnicity Indicators. New views were placed over the	V_PERS_HIST_PRR_DIR
	Person History and Race History tables for security and access purposes.	V_RACE_HIST_PRR_FULL_LTD
	2) Student Academic Records: Existing Race/Ethnicity classes remained as is and new classes were created	T_RACE_CD
	that contain the new Race and Ethnicity Indicators. New views were placed over the Person History and	T_AC_APPL_PERS
	Race History tables for security and access purposes.	IPEDS_RACE_CATGRY_CD
	3) Student Application Census: Two columns were removed from T_AC_APPL_PERS because the business	IPEDS_RACE_CATGRY_DESC
	rule used to create the columns did not align with the current IPEDS standards.	
	4) Student Financial Aid and Universe: Existing Race/Ethnicity classes remained as is because this data	
	collection uses Registration tables/views. Because Financial Aid uses the Registration person and race	
	views, the data collection and universe have been updated over the Person History and Race History tables	
	for security and access purposes.
