

| Enhancements include new functionality added to data or Decision Support solutions. Operational changes are modifications to data or Decision Support solutions including data quality, performance, adjustment, defect, and processing changes. | | |
|---|--|---|
| Date | Title | Areas Affected (Universes / Dashboards / Cubes / Tables / Views / Columns, etc.) |
| Subject Area | Summary Description | |
| Type (Enh./Oper.) | | |
| Reference Number | | |
| 11/4/2010 | Removed Columns from the Student Registration Group Table | T_STUDENT_REG_GROUP |
| Student | Decision Support removed the columns COLL_CD and DEPT_CD from the Student Registration Group table to correct an error that prevented users with security at that level to obtain the data when it is not populated. The error occurred when students had time tickets for priority registration prior to registration. The table was secured at the campus level. | COLL_CD DEPT_CD |
| Operational | | |
| 20101020_R637790 | | |
| 11/16/2010 | Added Columns to View and Correct Universe Sourcing | EDW - Student Academic Records |
| Student | Decision Support added the END_OF_TERM_CALC_CLS_CD and END_OF_TERM_CALC_CLS_DESC columns to the V_STUDENT_AH_TERM_RTALTD view and correct the sourcing in the Student Academic Records universe. | V_STUDENT_AH_TERM_RTALTD END_OF_TERM_CALC_CLS_CD END_OF_TERM_CALC_CLS_DESC |

| 11/18/2010 | Updated Object Definition in Student Registration Universes | EDW - STU Registration Complete EDW - STU Registration Limited |
| Student | To provide better information for users on the purpose and expected results of the Business Objects object "Drop Delete/Registered Indicator", Decision Support updated the object definition appearing in the Student Registration Complete and Registration Limited universes. | |
| Operational | | |
| 20100429_R467685 | | |
| 11/18/2010 | Added Student Section Meeting Information to the Registration Limited Universe | EDW - STU Registration Limited |
| Student | Decision Support added Student Section Meeting information to the Registration Limited universe. Section Meeting information includes start/end dates and times, building information, section meeting hours, etc. | |
| Operational | | |

| 11/18/2010 | Changed Data Warehouse Processing in Student AH Degree GPA Course Table | T_STUDENT_AH_DEG_GPA_CRSD DEPT_CD |
| Student | Decision Support changed Data Warehouse processing (ETL) to insert a space when nulls are found in the source of the DEPT_CD column in the Student AH Degree GPA Course table. | |
| Operational | | |
| 20100915_R615758 | | |
| 11/18/2010 | Created a New Column/Object for Non-Numeric Test Scores in Student Table/Universes | EDW - Current Applicant EDW - STU Registration Complete T_TEST_RESULT_HIST |
| Student | Decision Support created a new column for non-numeric test scores in the Test Result History table and its associated views and a new object for the Student Current Applicant and Registration Complete universes. The new column will mimic the logic for the existing TEST_RESULT_TEST_SCORE column, but solely contain non-numeric scores. | |

| 20100823_R600008 | | |
| 11/18/2010 | Implemented Student Orientation Project | T_STUDENT_ORNT |
| Student | Decision Support added the UIC Student Orientation data to the Data Warehouse to allow UIC users to have a central location to combine student orientation information (Student Level, Orientation College/Program, Session Start/End Dates, etc.) with additional student admissions and records information from the Data Warehouse. This solution also provides a consistent location, data appearance, flexibility, and availability for users of UIC Student Orientation data for access via ODBC or Business Objects (Current Applicant). T_STUDENT_ORNT: For UIC Only - Provides Student Orientation data for students who have registered for an Orientation Session prior to attending UI. | |

| ITPC-0286 | | |
| 11/18/2010 | Created Payroll Detail Universe, Table, and View | |
| HR | To enhance payroll performance reporting, Decision Support created a table and view that contain the majority of the same columns as found in the Payroll Accounting Detail table, but is limited to only current plus two previous fiscal years. In coordination with this effort to reduce reporting run times, a new Payroll Detail universe was created that utilizes the new view. Also, to increase ease of use in the new universe, the number of universe contexts was reduced to a single context. | |

| Reference Number | | |
| 11/18/2010 | Corrected Logic on Consolidated Faculty Analysis Person Dimension Table | Consolidated Faculty Analysis Cube |
| CFA | Decision Support corrected the logic of the Consolidated Faculty Analysis Person Dimension table to properly process when a faculty rank code is in the process of changing. For example, when an Associate Professor is in the process of being promoted to Professor, in the data source, the faculty rank current info indicator is set to 'Y' for both Associate Professor and Professor for the same person. A filter was added to the T_PERS_DIMENSION logic to report the proper row for Faculty Rank Description and subsequently calculate Rank # of Years properly. Only current fiscal year's data was corrected. | T_PERS_DIMENSION |
| Operational | | |
| 20100922_R619787 | | |
| 11/18/2010 | Enabled Automated File Loading into Consolidated Faculty Analysis Table | T_EMPEE_TEACHING_LOAD_FACT |
| CFA | Decision Support redesigned the process that loads the teaching information files to create and load the CFA table T_EMPEE_TEACHING_LOAD_FACT to allow for file loading automation. Creating automated file loading into Consolidated Faculty Analysis allows users more timely access to the current teaching data. | |
