   6.6 Add Admissions Standardized High School Data to Current Recruit...................................................13

© 2005, The Board of Trustees of the University of Illinois
1. Catalog & Schedule

1.1 Addition of Section Building Information Objects

**Products Affected:** C&S Business Objects Universes

**Universe Affected:** EDW – STU – Course Schedule

**Case Number:** 20050617_505

**Description:** To facilitate reporting on Section Building data, Decision Support has added two new objects to the Course Schedule universe for Section Building Code and Section Building Name. These objects will be sourced from the EDW table T_SECT_MEETING. Users who wish to report on Room and Building information by CRN should use these new Section Building objects.

NOTE: Users should not use the Building data located in the T_ROOM_DEFN or T_BLDG_DEFN tables to report on building information by CRN. The data in these tables are not correlated to section information.

1.2 Correction to Section Attribute Current Info Indicator Logic

**Products Affected:** C&S EDW Tables (T_SECT_ATTR_HIST)

**Universe Affected:** N/A

**Case Number:** 20050413_334

**Description:** The logic used to populate the Section Attribute Current Info Indicator column (SECT_ATTR_CUR_INFO_IND) and corresponding object was incorrect. The previous logic was incorrectly assigning a delete (‘D’) value to existing section attributes once a new attribute was added. This logic was incorrect, and was causing inaccurate reporting results. The logic has been updated according to the correct business process rules supplied by the functional offices. The Current Info Indicator can now be used to return accurate current and deleted section attributes.
2. Finance

2.1 Addition of Bank Check Cancellation Objects

**Products Affected:** Finance Business Objects Universes

**Universe Affected:** EDW – Finance – Purch Order Invoices

**Case Number:** 20050616_440

**Description:** Two new objects related to canceled Bank Checks have been added to the Purchase Order Invoices universe. The new objects are named Bank Check Cancel Indicator and Bank Check Cancel Date. The objects are available in the C5 context, in the Payments sub-class of the Invoice Voucher Accounting Detail class. The objects are sourced from the BANK_CHK_CNCL_IND and BANK_CHK_CNCL_DT columns of the EDW table T_BANK_CHK, respectively.
3. Financial Aid

3.1 Financial Aid Office Ad Hoc Universe to be Decommissioned

<table>
<thead>
<tr>
<th>Products Affected:</th>
<th>FinAid Business Objects Universes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe Affected:</td>
<td>EDW – Fin Aid Off Ad Hoc</td>
</tr>
<tr>
<td>Case Number:</td>
<td>N/A</td>
</tr>
<tr>
<td>Description:</td>
<td>The existing Financial Aid Office Ad Hoc universe (EDW - Financial Aid Office Ad Hoc) will be decommissioned and no longer available for use after July 31, 2005.</td>
</tr>
</tbody>
</table>

A new reporting universe was made available in March to support custom Financial Aid reporting. This new universe (EDW - STU - Financial Aid) is the result of a collaborative effort between DS and Financial Aid Office personnel on all 3 campuses.

The new Financial Aid universe provides a more intuitive and user friendly reporting structure. This universe provides a targeted subset of the existing Financial Aid Ad Hoc universe, and was developed to provide you with a simplified environment to develop your Financial Aid reports. Testing has revealed that many of the errors and data relationship issues found in the existing Financial Aid Office Ad Hoc universe have been corrected in this new universe.

All reports created using the old Financial Aid Office Ad Hoc universe should be redeveloped against the new universe as soon as possible. Beginning July 31, reports developed against the Financial Aid Ad Hoc universe will no longer return results.
4. Human Resources/Payroll

4.1 Correction to Processing Logic for Original Status Hire Date Data

**Products Affected:** HR EDW Tables (T_EMPEE_HIST)  
**Universe Affected:** N/A  
**Case Number:** 20050512_372  

**Description:** Decision Support has noted an error in the processing logic used to populate the Original Status Hire Date (ORIG_STATUS_HIRE_DT) data in the Data Warehouse table T_EMPEE_HIST. As a result of this error, employees who held a non-status job were considered to be non-status, even if they also held a status job. This logic is incorrect, and caused improper dates to be entered into the ORIG_STATUS_HIRE_DT column for those employees with non-status jobs more recent than their existing status jobs. Instead, employees with both non-status and status jobs should be considered as status employees, and the Original Status Hire Date should reflect the date for the status job.

The processing logic will be corrected for all future processing. However, the historical data can not be updated or corrected. Data entered or changed in Banner prior to July 22, 2005 may reflect incorrect Original Status Hire Dates for employees with both status and non-status jobs.

4.2 Changes to Full-Time Indicator Objects & Columns

**Products Affected:** HR EDW Tables (T_EMPEE_HIST, T_EMPEE_CLS_HIST)  
HR Security View (V_EMPEE_HIST_1)  
HR Business Objects Universes  
**Universe Affected:** EDW - HR - Deduction Administration  
EDW - HR - Employee Administration  
EDW - HR - Position/Job Hierarchy  
EDW - HR - Time & Attendance  
**Case Number:** 20050610_60  

**Description:** Decision Support has implemented changes to the Full-Time Indicator object and columns. The existing Full Time Indicator object has been removed from HR universes listed above. The previous Full Time Indicator object has been replaced by 2 new objects for Full-Time/Part-Time Indicator Code and Description. These new objects return values of (F)ull-time, (P)art-time and (O)ther, based on an employee's time status. In addition, the E-Class Full Time Indicator object has been removed from the Employee Administration universe. This object has not been replaced with a new object.

Decision Support has also removed the FT_IND column from the T_EMPEE_HIST table and the V_EMPEE_HIST_1 security view. 2 new columns (FT_PT_STATUS_CD and FT_PT_STATUS_DESC) have been added to replace the FT_IND column. The FT_IND column in the T_EMPEE_CLS_HIST table has also been removed. New columns have not been added to this table.

If you have created reports in any of the above listed universes that utilize the existing Full-Time Indicator, you will have to take action on or after July 21. You must remove the Full-Time Indicator object from any existing reports and replace it with one or both of the new Full-Time/Part-Time Indicator Code/Description objects. The E-Class Full Time Indicator object should be removed from any reports.
Additionally, if you have created reports, data downloads, or queries using the FT_IND column in the T_EMPEE_HIST table, the V_EMPEE_HIST_1 view, or the T_EMPEE_CLS_HIST table you will have to take action on or after July 21 as a result of this event. You must remove the FT_IND column and replace it with one or both of the new FT_PT_STATUS_CD/DESC columns from the T_EMPEE_HIST table or V_EMPEE_HIST_1 view.

Reports containing the old Full-Time Indicator object, the E-Class Full Time Indicator object, or the FT_IND column will no longer return results, effective July 21.

### 4.3 Index Added to FIN_DOC_ID

<table>
<thead>
<tr>
<th>Products Affected:</th>
<th>HR/Pay EDW Tables (T_PAYR_ACCTG_DETL)</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>Description:</td>
<td>A new index has been added to the FIN_DOC_ID column to improve performance of queries written against this data.</td>
</tr>
</tbody>
</table>

### 4.4 Remove Faculty Leave of Absence Appeal Table & Objects

<table>
<thead>
<tr>
<th>Products Affected:</th>
<th>HR EDW Tables (T_FAC_LOA_APPEAL_HIST)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universe Affected:</td>
<td>EDW – HR – Employee Administration</td>
</tr>
<tr>
<td>Case Number:</td>
<td>20050607_578</td>
</tr>
<tr>
<td>Description:</td>
<td>The Banner source table for the Faculty Leave of Absence Appeal History table (T_FAC_LOA_APPEAL_HIST) no longer contains data. The table was originally designed to contain rows relating to deletes in the Banner system. Because this table is no longer being used in the Banner system, it will be removed from the EDW, effective August 18. Objects relating to this table have been hidden in the Employee Administration universe. They will be permanently removed on August 18. The objects that are affected are:</td>
</tr>
</tbody>
</table>

- Faculty LOA Appeal Action Date
- Faculty LOA Appeal Level Code
- Faculty LOA Appeal User Name
- Faculty LOA Appeal Level Desc
- Faculty LOA Appeal Last Level Ind
- Faculty LOA Appeal Effective Date
- Faculty LOA Appeal Expiration Date
- Faculty LOA Appeal Decision Desc
- Faculty LOA Appeal Date
- Faculty LOA Appeal Deferral Date

Users who have created reports using this table or these objects should rewrite their reports to exclude this data. Reports containing this data will no longer return results, effective July August 18.
4.5 Remove Faculty Leave of Absence Appeal Comment Table & Objects

**Products Affected:** HR EDW Tables (T_FAC_LOA_APPEAL_COMMENT)

**Universe Affected:** EDW – HR – Employee Administration

**Case Number:** 20050607_582

**Description:** The Banner source table for the Faculty Leave of Absence Appeal Comment table (T_FAC_LOA_APPEAL_COMMENT) contains no rows. Because this table is no longer being used in the Banner system, it will be removed from the EDW, effective August 18.

Objects relating to this table have been hidden in the Employee Administration universe. They will be permanently removed on August 18. The objects that are affected are:

- Faculty LOA Appeal Comment Code
- Faculty LOA Appeal Comment Desc

Users who have created reports using this table or these objects should rewrite their reports to exclude this data. Reports containing this data will no longer return results, effective August 18.

---

4.6 Remove Faculty Leave of Absence Approval Comment Table & Objects

**Products Affected:** HR EDW Tables (T_FAC_LOA_APPRV_COMMENT)

**Universe Affected:** EDW – HR – Employee Administration

**Case Number:** 20050607_579

**Description:** The Banner source table for the Faculty Leave of Absence Approval Comment table (T_FAC_LOA_APPRV_COMMENT) contains no rows. Because this table is no longer being used in the Banner system, it will be removed from the EDW, effective August 18.

Objects relating to this table have been hidden in the Employee Administration universe. They will be permanently removed on August 18. The objects that are affected are:

- Faculty LOA Approval Comment Code
- Faculty LOA Approval Comment Desc

Users who have created reports using this table or these objects should rewrite their reports to exclude this data. Reports containing this data will no longer return results, effective August 18.
4.7 Remove Leave of Absence Comment Table & Objects

Products Affected: HR EDW Tables (T_LOA_COMMENT)

Universe Affected: EDW – HR – Time & Attendance

Case Number: 20050607_583

Description: The Banner source table for the Faculty Leave of Absence Appeal Comment table (T_LOA_COMMENT) contains no rows. Because this table is no longer being used in the Banner system, it will be removed from the EDW, effective August 18.

Objects relating to this table have been hidden in the Employee Administration universe. They will be permanently removed on August 18. The objects that are affected are:

- LOA Comment Code
- LOA Comment Desc

Users who have created reports using this table or these objects should rewrite their reports to exclude this data. Reports containing this data will no longer return results, effective August 18.

4.8 Remove Faculty Rank Comment Table & Objects

Products Affected: HR EDW Tables (T_FAC_RANK_COMMENT)

Universe Affected: EDW – HR – Time & Attendance

Case Number: 20050607_585

Description: The Banner source table for the Faculty Rank Progression Comment table (T_FAC_RANK_COMMENT) contains only 2 rows. Because this table is no longer being used in the Banner system, it will be removed from the EDW, effective August 18.

Objects relating to this table have been hidden in the Employee Administration universe. They will be permanently removed on August 18. The objects that are affected are:

- Faculty Rank Comment Code
- Faculty Rank Comment Desc

Users who have created reports using this table or these objects should rewrite their reports to exclude this data. Reports containing this data will no longer return results, effective August 18.

4.9 Addition of Fund, Account, Program, and Org Description Data for Salary Planner Job Labor Distribution

Products Affected: HR EDW Tables (T_SP_JOB_LBR_DISTR)

Universe Affected: EDW – HR – Salary Planner

Case Number: 20050411_326

Description: New columns for Fund Type Code & Title, Account Title, Program Title, and Org Title have been added to the T_SP_JOB_LBR_DISTR table. These columns correspond to the existing Code data.
In addition, new objects have been added to the Job Salary Planner Labor Distribution sub-class of the Salary Planner Job class in the Salary Planner universe. Users may use these new columns or objects to return the name of the resulting fund, account, program, or org data.

The new column and object names are as follows:

<table>
<thead>
<tr>
<th>Object Name</th>
<th>Object Type</th>
<th>EDW Source Table Name</th>
<th>EDW Source Column Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>SP Job L/D Org Title</td>
<td>Detail</td>
<td>T_SP_JOB_LBR_DISTR</td>
<td>SP_JOB_DISTR_ORG_TITLE</td>
</tr>
<tr>
<td>SP Job L/D Financial Acct Title</td>
<td>Detail</td>
<td>T_SP_JOB_LBR_DISTR</td>
<td>SP_JOB_DISTR_FIN_ACCT_TITLE</td>
</tr>
<tr>
<td>SP Job L/D Financial Pgm Title</td>

<td>SP_JOB_DISTR_FUND_TYPE_CD</td>
</tr>
<tr>
<td>SP Job L/D Financial Fund Type Title</td>
<td>Detail</td>
<td>T_SP_JOB_LBR_DISTR</td>
<td>SP_JOB_DISTR_FUND_TYPE_TITLE</td>
</tr>
</tbody>
</table>

4.10 Addition of Fund, Account, Program, and Org Description Data for Salary Planner Position Labor Distribution

**Products Affected:** HR EDW Tables (T_SP_POSN_LBR_DISTR)

**Universe Affected:** EDW – HR – Salary Planner

**Case Number:** 20050411_311

**Description:** New columns for Fund Type Code & Title, Account Title, Program Title, and Org Title have been added to the T_SP_POSN_LBR_DISTR table. These columns correspond to the existing Code data.

In addition, new objects have been added to the Position Salary Planner Labor Distribution sub-class of the Salary Planner Position class in the Salary Planner universe. Users may use these new columns or objects to return the name of the resulting fund, account, program, or org data.

The new column and object names are as follows:

<table>
<thead>
<tr>
<th>Object Name</th>
<th>Object Type</th>
<th>EDW Source Table Name</th>
<th>EDW Source Column Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>SP Posn L/D Financial Fund Title</td>
<td>Detail</td>
<td>T_SP_POSN_LBR_DISTR</td>
<td>SP_POSN_DISTR_FUND_TITLE</td>
</tr>
<tr>
<td>SP Posn L/D Org Title</td>
<td>Detail</td>
<td>T_SP_POSN_LBR_DISTR</td>
<td>SP_POSN_DISTR_ORG_TITLE</td>
</tr>
<tr>
<td>SP Posn L/D Financial Acct Title</td>
<td>Detail</td>
<td>T_SP_POSN_LBR_DISTR</td>
<td>SP_POSN_DISTR_FIN_ACCT_Title</td>
</tr>
<tr>

<td>SP Posn L/D Financial Fund Type Title</td>
<td>Detail</td>
<td>T_SP_POSN_LBR_DISTR</td>
<td>SP_POSN_DISTR_FIN_FUND_TYPE_TITLE</td>
</tr>
</tbody>
</table>
4.11 Addition of Preferred Email Indicator Objects

Products Affected: HR Business Objects Universes

Universe Affected: EDW – HR – Employee Administration
                 EDW – HR – Position/Job Hierarchy

Case Number: 20050616_209

Description: Two new objects for Employee Non Campus Email Preferred Indicator and Employee Campus Email Preferred Indicator have been added to the universes listed above. These objects are sourced from the EDW security view V_EMPEE_HOME_EMAIL_ADDR.EMAIL_PREFERRED_IND and V_EMPEE_CAMPUS_EMAIL_ADDR.EMAIL_PREFERRED_IND respectively. The objects are located in the Employee Detail sub-class of the Employee class in each universe.

Users can use these objects to return a single preferred address record for each employee.
5. Pre-Registration & Registration

5.1 Correct Universe Joins in Registration Complete

**Products Affected:** PRR Business Objects Universes

**Universe Affected:** EDW – STU – Registration Complete

**Case Number:** 20050616_276

**Description:** The previous structure of the universe joins for Admissions and Registration data in the Registration Complete universe may have resulted in unreliable results on some reports combining admissions and registration data. To correct this issue, Decision Support has modified two universe joins related to admissions and registration data.

The `ALLAPP_V_ADM_DECN_HIST` table is now joined to the `ALLAPPL_T_ADM_APPL_HIST` table via `EDW_PERS_ID`, `TERM_CD`, and `APPL_NBR`. It was previously joined only via `EDW_PERS_ID` to the `V_PERS_HIST_PRR_FULL_LTD` table.

In addition, the `V_ADM_DECN_HIST` view is now joined to the `T_ADM_APPL_HIST` table via `EDW_PERS_ID`, `TERM_CD`, and `APPL_NBR`. It was previously joined only to the `T_STUDENT_TERM` table.
6. Recruiting & Admissions

6.1 Addition of Birth Date Column

**Products Affected:** R&A Data Mart Tables (T_DM_RECRUIT_APPLICANT)

**Universe Affected:** None

**Case Number:** 20040212_579

**Description:** A new column for Birth Date (BIRTH_DT) has been added to the Data Mart table T_DM_RECRUIT_APPLICANT.

6.2 Addition of Visa Type Code Column

**Products Affected:** R&A Data Mart Tables (T_DM_RECRUIT_APPLICANT)

**Universe Affected:** None

**Case Number:** 20040212_579

**Description:** A new column for Visa Type Code (VISA_TYPE_CD) has been added to the Data Mart table T_DM_RECRUIT_APPLICANT.

6.3 Addition of Test Taken Date and Test Score Source Description Columns

**Products Affected:** R&A Data Mart Tables (T_DM_TEST_SCORES)

**Universe Affected:** None

**Case Number:** 20040212_579

**Description:** Two new columns for Test Taken Date (TEST_TAKEN_DT) and Test Score Source Description (TEST_SCORE_SRC_DESC) have been added to the Data Mart Test Scores table (T_DM_TEST_SCORES) to facilitate reporting of testing information for applicants.

6.4 Addition of High School Percentile and High School Class Size Columns

**Products Affected:** R&A Data Mart Tables (T_DM_RECRUIT_APPLICANT)

**Universe Affected:** None

**Case Number:** 20040329_613

**Description:** Two new columns for High School Percentile (HS_PCT) and High School Class Size (HS_CLASS_SIZE) have been added to the Recruiting & Admissions Data Marts. The columns are sourced from the EDW table T_HS_HIST.
6.5 Add Address Type Code Object

**Products Affected:** R&A Business Objects Universes

**Universe Affected:**
- EDW – STU – Current Applicant
- EDW – STU – Current Recruit

**Case Number:** 20050607_751

**Description:**
Previously, the Current Applicant and Current Recruit universes did not return mailing address results for students with a NULL value for Mailing or Permanent Address. In order to enable users to report on applicant/recruit addresses, regardless of whether an applicant/recruit has specified an address, Decision Support has added a new object for Address Type Code to the two universes listed above. To further support this type of reporting, the universe has been modified to add an outer join on the V_ADM_ADDR_HIST view.

Users can use the new Address Type Code object when reporting on applicant/recruit address to ensure complete results, or to report on applicants/recruits by their address type.

6.6 Add Admissions Standardized High School Data to Current Recruit

**Products Affected:** R&A Business Objects Universes

**Universe Affected:** EDW – STU – Current Recruit

**Case Number:** 20050616_524

**Description:**
New objects for Admissions Standard High School History have been added to the Current Recruit universe. The objects listed below are now available in a new class called Standardized HS Information, and are sourced from the R&A security view V_RECRUIT_ADM_STD_HS_HIST.

- Std High School Graduation Date
- Std High School GPA
- Std High School Class Rank
- Std High School Class Size
- Std High School Percentile
- Std Diploma Type Code
- Std Diploma Type Desc
- Std HS College Prep Indicator
- Std HS Transcript Receive Date

These objects can be used to report on High School data for recruits who are admitted to the University. The objects may not return data for those recruits who are not admitted to the University of Illinois.
