- EDW - STU Registration Intruct Asg
- Table(s): T_FAC_INSTRN_ASSIGN

**Case Number:** 20070629_41 & 20070912_140

**Description:** Decision Support made several changes to the Data Warehouse Faculty Instructional and Non-Instructional Assignment tables:
- T_FAC_INSTRN_ASSIGN: Column FAC_ASSIGN_POSN_NBR has been removed from this table in order to accommodate a new column, FAC_INSTRN_ASSIGN_POSN_NBR. This change allows users to pull the position information from the correct source in Banner.
- T_FAC_SECT_INSTRN_ASSIGN: Column FAC_ASSN_POSN_NBR has been removed from this table in order to accommodate new columns, FAC_SECT_INSTRN_POSN_NBR and FAC_SECT_INSTRN_JOB_SUFFIX. This change allows users to pull the position information from the correct source in Banner.
- ODBC Users: Access to the Data Warehouse tables (T_FAC_INSTRN_ASSIGN & T_FAC_SECT_INSTRN_ASSIGN) has not changed.
- Universe Users: Course Schedule and Instructional Assignment universes have been updated to source the correct position information, but use the existing object. Business Objects reports has not been affected by this change.

- T_STUDENT_HOLD_HIST: Column STUDENT_ACTIVE_HOLD_IND (Active Hold Indicator) has been dropped from this table and the Registration Complete & Limited universes. The previous logic used to derive this column onto this table was flawed, therefore inaccurate.
- T_STUDENT_HOLD: A new table has been created in the Data Warehouse and will be sourced from SPRHOLD. This allows users to access information on current holds for a student.
